## Superintendent's Highlights

The highlight of the 1997-98 school year was the Direct Writing Assessment scores. The district had 23 juniors and 3 seniors take this assessment and every one of them received a passing score of 3 or above. The district's average score at the 11th grade level was 3.9.

The district's network is installed and working fine. The network provides communication between all rooms via email and allows access to the Internet from each station. The district has 98 computers and 76 of them networked.

The board has adopted section 100-400 of their new policy manual. Sections 500-1000 are being reviewed for editing. The board hopes to have the entire new manual ready in September of 1998.

The Garden Valley Elementary school has implemented the accelerated reader and dreamwriter-keyboarding program. Data is reported to the board on a monthly basis on the improvement at each level.

## Progress Towards Meeting District Goals

### 1997-98 Goals

### Progress

Write the K-12 Science curriculum.

The curriculum has been written and adopted by the board.

Implement a K-12 music program.

A full time K-12 music teacher was hired. The community was treated to two concerts both with instrumental and choral performances. A first time musical production (a joint effort between the music and drama teachers) was performed for the community.

Implement SASI school wide grading and reporting software.

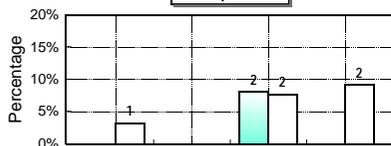

The software has been purchased and installed. The elementary school is reporting attendance with this software. Some teachers at the high school are reporting attendance and grades with it. Our goal is to have 100% participation by next year.
